

The Driving Force

ROBUST ELECTRODYNAMIC VIBRATION TEST SYSTEMS

Thermotron®, the global leader in high-performance test equipment, is shaking up the shock and vibration industries with our Electrodynamic Vibration Test Systems:

- Superior acceleration, velocity, force and shock performance
- Single source partner for all components
- Shaker, amplifier, control system & software, slidable, head expanders and fixturing
- Celebrating 30 years of innovative vibration systems experience

Call 616.393.4580 or visit our website to download **The Fundamentals of Vibration Testing Handbook** and see what's shaking at Thermotron.
